

**ADDENDUM NO.2
TO THE BIDDING/CONTRACT DOCUMENTS AND SPECIFICATIONS
CITY OF HOLLY HILL
FY 2010-2011 SANITARY SEWER REHABILITATION PROGRAM**

July 13, 2011

To All Plan Holders:

The following changes, clarifications, and additions are hereby made part of the bidding and project plans and/or specifications for the above referenced project dated June 2011 and prepared by Quentin L. Hampton Associates, Inc. as fully and completely as if the same were fully set forth therein.

1. **Specification Section 00310 'Schedule of Unit Prices'** - The following are clarifications:
 - The quantities shown are estimates and installed quantities will be different than the bid totals. Unit pricing shall remain valid for the duration of the contract.
 - CIPP internal repair length are 5', typical.
 - Dig-up point repairs are 4'-12' deep, averaging 8' depth.
 - Manhole repairs shall include grout and/or epoxy repair of leaking areas and cementitious coating of the interior surfaces. The cementitious coating shall be Sewpercoat™ or A similar products which exhibits the same chemical composition.
 - The Contractor is responsible for all pavement repair traffic control, restoration and permitting required for point repairs. Restoration shall be in accordance with City or County Standards, as appropriate. Standards and details are available on-line.

2. **Specification Section 02746, paragraph 1.04** - The 'Installer' experience requirements are changed from 5 to 4 years. Paragraph 2.01 (F) shall include Applied Felts as an approved cured in place liner.

3. The bid date and time remains unchanged.

Disclaimer: This addendum was sent via e-mail. The delivery confirmation is acknowledgement that the addendum has been received. It is the sole responsibility of the bidder to confirm that all addenda have been received prior to submitting bid and acknowledge such in the bid documents.
