

Trash and Solid Waste

Storm debris collection

Residents should bring storm debris to the public right of way, the area that extends from the street to the sidewalk, ditch, utility pole or easement. Residents should not place debris in the road; this obstructs traffic, hinders cleanup and power restoration efforts, and makes it difficult for emergency vehicles to pass. If possible, keep debris away from drainage ditches, inlets, mailboxes and power lines. Do not cover storm drains and never block fire hydrants.

Residents must sort debris into separate piles for **vegetative debris** (leaves, branches and cut trees), **construction and demolition debris** (building materials, carpet, furniture, fences, drywall, etc.) and **appliances and white goods** (refrigerators, dishwashers, washing machines, stoves). If you have a small amount of yard debris, normal collection rules will apply. The contractor will not pick up storm debris that is not appropriately separated. Electronics and household hazardous waste will not be collected. Residents can dispose of electronics and household hazardous waste at the Tomoka Landfill or the West Volusia Transfer Station free of charge.

Individuals who hire a contractor to handle large tree debris or household damage must make sure the contractor is licensed and insured and knows he or she is required to take all debris to the Tomoka Landfill, 1990 Tomoka Farms Road, Port Orange. Contractors are required by law to dispose of debris properly; they cannot place it in the right of way. Only materials cut by the property owner may be brought to the road for collection.

Standard trash pickup will continue as scheduled beginning Monday, Oct. 3. Storm debris should not be placed in household garbage. If you place more than the four cubic yards per household on the curb, garbage collectors will not pick it up. Do not place yard waste in your 96-gallon cart and do not mix yard waste with any other types of waste.

The Tomoka Farms Road Landfill and West Volusia Transfer Station will be open Saturday, Oct. 1, and Sunday, Oct. 2. The facility hours for Oct. 1 and Oct. 2 are:

Tomoka Farms Road Landfill – 7 a.m. to 5:30 p.m.

West Volusia Transfer Station – 7 a.m. to 5 p.m.

Due to minor flooding at the entrance, the Tomoka Farms Road Landfill will be limited to commercial vehicles. Residents should use the West Volusia Transfer Station at 3151 E. New York Ave.

If you have questions regarding your trash pickup, or any other solid waste concerns, please contact Customer Service by phone at 386-248-9432 or by email at customerservice [at] hollyhillfl.org (subject: Customer%20Inquiry)
