ORGANIZATION CHART

CITY OF HOLLY HILL, FLORIDA

CERTIFICATE OF ACHIEVEMENT AWARDED

For the Year Ended September 30, 2002

*The Government Finance Officers Association of the United States and Canada (GFOA) awarded a **Certificate of Achievement for Excellence in Financial Reporting** to the City of Holly Hill, Florida, for its comprehensive annual financial report for the fiscal year ended September 30, 2002.*

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to Certificate of Achievement Program requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

EXERCISES

EXERCISES

EXERCISES

The first exercise is to find the area of a triangle with base b and height h . The area is given by the formula $A = \frac{1}{2}bh$. This formula can be derived by considering a rectangle with the same base and height. The area of the rectangle is $A_{\text{rect}} = bh$. The triangle is half of this rectangle, so its area is $A = \frac{1}{2}bh$.

The second exercise is to find the area of a circle with radius r . The area is given by the formula $A = \pi r^2$. This formula can be derived by considering a circle with radius r and circumference $C = 2\pi r$. The area of the circle is $A = \frac{1}{2}Cr = \frac{1}{2}(2\pi r)r = \pi r^2$.

The third exercise is to find the area of a square with side length s . The area is given by the formula $A = s^2$. This formula can be derived by considering a square with side length s . The area of the square is $A = s \times s = s^2$.

Certificate of Achievement for Excellence in Financial Reporting

Presented to

City of Holly Hill,
Florida

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
September 30, 2002

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

President

Executive Director

Honorable Mayor Arthur, and
Members of the City Commission
City of Holly Hill, Florida

The comprehensive annual financial report of the City of Holly Hill, Florida, for the fiscal year ended September 30, 2003, is hereby submitted pursuant to the City Charter, Florida Statutes, and Chapters 10.500 and 11.45, Rules of the Auditor General of the State of Florida. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the government. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operation of the various funds and account groups of the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and compliance. The introductory section includes this transmittal letter, the City's organizational chart and a list of principal officials. The financial section includes the independent auditors' report, management's discussion and analysis, the basic financial statements, required supplementary information, and the combining and individual fund financial statements and schedules. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

The City has adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments* in reporting its financial activity for the fiscal year ended September 30, 2003. The new financial reporting model under GASB 34 represents a significant change in governmental financial reporting. The most significant changes required by GASB 34 are: (1) inclusion of Management's Discussion and Analysis is a required element of the financial statements, (2) requirement to report infrastructure assets, (3) requirement to report governmental funds on the economic resources measurement focus, (4) requirement to report government-wide financial statements, and (5) a switch in focus towards major funds and away from fund reporting. The objective of GASB 34 in providing emphasis on government-wide and major fund presentations is to enhance the understandability and usefulness of the basic external financial reports of state and local governments to the citizens, legislative and oversight bodies, investors, and creditors.

Honorable Mayor Arthur, and
Members of the City Commission
City of Holly Hill, Florida
April 20, 2004
Page 2

The City is required to make the determination whether the audit of the City's participation in federal awards and state financial assistance projects will be conducted as a single audit in conformity with the provisions of U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and Chapter 10.550, Rules of the Auditor General. Based on the level of expenditures directly related to federal award programs and state financial assistance projects, the City was required to have its September 30, 2003 fiscal year end audit conducted as a single audit for federal program purposes only. Accordingly, there are supplementary reports and a schedule of expenditures of federal awards relative to a single audit presented in the last section of this report. Based on the level of expenditures directly related to state financial assistance, the City was not required to have its September 30, 2003 fiscal year end audit conducted as a Florida single audit.

This report includes all funds of the City. The City provides a full range of municipal services contemplated by statute or character. They include law enforcement and fire protection, development services, sanitation and solid waste control, stormwater management services, road and street facilities, employment opportunity, industry development, health services, parks and recreation facilities, community redevelopment, and general administrative services. This report also includes the Community Redevelopment Authority. Since its governing body is the same as the City's, and a separate legal entity was not formed with its creation, their financial statements are included in the City's basic financial statements as a separate special revenue fund pursuant to Governmental Accounting Standards Board Statement of Governmental Accounting Standards No. 14 "*The Financial Reporting Entity*."

ECONOMIC CONDITION AND OUTLOOK

The City is located on the eastern end of the Interstate-4 (I-4) corridor, the economic zone of Central Florida that roughly follows I-4 from Tampa through Orlando to the communities along the Atlantic coast in Volusia County.

Growth along the I-4 corridor has been exceptional and is expected to continue. Growth in the City slowed during the past year, but a new subdivision off 8th Street is expected to be completed in late 2005 and a new business plaza will be completed in mid 2004 on Nova Road. Opportunities for additional growth still exist in an already dynamic business and industrial community. Due to limited availability of vacant land parcels and other resources the City encourages new and expanded business development on a business-by-business basis and by assisting the owners wherever possible in overcoming obstacles. Property valuations increased significantly during the past year by 12.7%. The community currently has a 5.3% unemployment rate which is the same as the statewide rate of 5.3%.

Growth trends and their challenge to government are expected to continue. Maintaining service delivery to the residential and business community continues to require fresh approaches and examination of established practices to obtain and manage resources to meet those challenges.

MAJOR INITIATIVES

During the course of the year, the City Commission and staff pursued several major projects and programs. Among the most significant of those projects were:

1. Public Safety – The Holly Hill Police Department was awarded accredited status by the Commission for Florida Law Enforcement Accreditation (CFA) in 2003. The CFA reviewed all aspects of the department’s policies and procedures, management, operations, and support services to determine 276 standards of excellence. Many of the standards reviewed are critical to life, health and safety issues. By complying with these standards, they were also awarded International recognition by the Commission on Accreditation for Law Enforcement Agencies (CALEA). This voluntary state accreditation and national recognition process provides an agency with a “quality assurance review” and encourages intense self-scrutiny, resulting in more efficient and effective daily operations. This status is a significant accomplishment held in high esteem by the Criminal Justice community.

The City continued working on its plan to expand the Fire Department and co-locate additional personnel and equipment in a County fire station, while at the same time increasing the level of fire protection to the northwest portion of the city, an area that has seen increased annexation.

2. General Government – The City continued working on its goal to preserve the City’s history when it contracted with Volusia County to use and renovate two rooms of the coquina building known as the “Halifax Law Center” located in Holly Hill for use by the Historical Preservation Board to establish the Holly Hill Historical Museum.
3. Water and Sewer - In late 2002, the City Commission awarded contracts to begin a four-year program to replace water meters throughout the city with electronic meters that provide greater accuracy in meter readings. During fiscal year 2003, about 25% or 1,500 water meters were replaced. This program has already reduced personnel expenses and is expected to increase revenues as well due to greater meter reading accuracy.
4. Public Works – In conjunction with the Florida Department of Transportation’s widening of Nova Road from Flomich Street north, the City in 2001, entered into a joint project agreement to relocate and extend the city’s water lines to provide water service to residents and businesses in that area. In 2002, as an option, the City decided to have FDOT also install an 8" reuse water main that will connect with the City of Ormond Beach’s reuse water line for irrigation of the City’s medians on Nova Road. The FDOT has awarded \$100,000 to the City for median beautification. The project originally anticipated to be completed by November 2003 has been delayed to late 2004.
5. Stormwater Management - A \$4.2 million Stormwater Improvement project funded by the State Revolving Fund loan program started in late 2001 with the purchase of several properties for stormwater retention areas. Phase I of this project was completed in the summer of 2003 and is alleviating flooding conditions within several neighborhoods. Phase II of the project is expected to be completed in 2004.

FINANCIAL INFORMATION

Management of the City is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the government are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable,

but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

Budgeting Controls In addition, the City maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City Commission. Activities of all the governmental and proprietary funds are included in the annual appropriated budget.

The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established by department or division within an individual fund. The City also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Any unencumbered balance of appropriations shall revert to the General Fund and be subject to future appropriations. Open encumbrances are reported as reservations of fund balance at year end. Budgetary control is maintained by a constant review of revenues and expenditures by the City Manager and Finance Director. This budgetary control is communicated to the department heads.

Cash Management The City maintains pooled cash and investment accounts for all cash and investments under its control. Cash temporarily idle during the year was invested in demand deposit and time deposit accounts and U.S. Treasury securities ranging from 12 to 24 months to maturity. The City's investment policy is to minimize credit and market risks while maintaining a competitive yield on its portfolio. Accordingly, deposits were either insured by federal depository insurance or collateralized in accordance with state statutes. All collateral on deposits was held either by the City, its agent or a financial institution's trust department in the City's name. At September 30, 2003, unrestricted cash was invested primarily in interest bearing demand deposits, with the State Board of Administration, and in U.S. Treasury obligations.

Risk Management The City contracts for all known risk elements through the purchase of insurance from outside insurance companies. In addition, various risk control techniques are in place to minimize accident related losses. These include the establishment of safety rules and procedures, accident prevention training, and the ongoing efforts of the safety committee, which is charged with (1) reviewing accident reports to identify and verify their causes; (2) recommending corrective actions; (3) reviewing employee safety suggestions; (4) hearing and investigating employee complaints; (5) investigating hazardous conditions, material or equipment; and (6) recommending awards or penalties. All insurance coverage is held by commercial carriers and no settlements in excess of claims have been incurred during the past three fiscal years.

Debt Administration At September 30, 2003, the City had several debt obligations outstanding. This debt was comprised of \$13,535,000 in outstanding Water and Sewer System Refunding Revenue Bonds, Series 2002 (rated AAA by Moody's Investor Services, AAA by Standard and Poor's Corporation and insured by MBIA Insurance Corporation) and \$5,611,935 in installment note obligations. During the year, the City borrowed \$1,781,001 through participation in the Florida Department of Environmental Protection, State Revolving Fund Loan Program. The proceeds were used to fund the costs related to various stormwater drainage improvement projects.

Honorable Mayor Arthur, and
Members of the City Commission
City of Holly Hill, Florida

Page 5

OTHER INFORMATION

Independent Audit The City Charter and State Statutes require an annual audit by independent certified public accountants. The accounting firm of Brent Millikan & Company, P.A., was selected by the City Commission to serve in this capacity. Their auditors' report on the general purpose financial statements is included in the financial section of this report. Their reports on compliance and other matters is contained in the *Compliance* section at the end of the comprehensive annual financial report.

Awards The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the government for its comprehensive annual financial report for the fiscal year ended September 30, 2002. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government reports. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report whose contents conform to program standards. Such report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The City has received a Certificate of Achievement for the last 26 consecutive years. We believe our current report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition, the City received the GFOA's Award for Distinguished Budget Presentation for its annual budget for the fiscal year beginning October 1, 2002. This is the fifteenth consecutive year that the City has received this prestigious award. In order to qualify for the Distinguished Budget Presentation Award, the City's budget document was judged to be proficient in several categories including policy documentation, financial planning and organization.

Acknowledgments The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the Finance Department. Each member of the department has my sincere appreciation for the contributions made in the preparation of this report. In closing, without the leadership and support of the governing body of the City, preparation of this report would not have been possible.

Respectfully submitted,

Brenda Gubernator
Director of Finance

INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor, City Commission
and City Manager
City of Holly Hill, Florida

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Holly Hill, Florida, as of and for the year ended September 30, 2003, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of City of Holly Hill, Florida's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Police Officers' Retirement Trust Fund, which reflect \$4,557,944 of the assets and net assets held in trust for pension benefits at September 30, 2003, and \$817,213 of contributions and investment earnings for the year then ended. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for Police Officers' Retirement Trust Fund, is based on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Holly Hill, Florida, as of September 30, 2003 and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 12, the City has implemented a new financial reporting model as required by the provisions of Governmental Accounting Standards Board Statement No. 34, Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments as of September 30, 2003. This results in a change in the format and content of the basic financial statements.

The Honorable Mayor, City Commission
and City Manager
City of Holly Hill, Florida
Page 2 of 2

In accordance with *Government Auditing Standards*, we have also issued our report dated April 20, 2004, on our consideration of City of Holly Hill, Florida's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The Management's Discussion and Analysis and other required supplementary information on pages 3 through 14 and 56 through 63, respectively, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Holly Hill, Florida's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical tables listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Brett Milliken & Co., P.A.

April 20, 2004

MANAGEMENT'S DISCUSSION AND ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

As financial management of the City of Holly Hill, Florida, (hereinafter referred to as the "City"), we offer the readers of these basic financial statements this narrative overview and analysis of the City's financial activities for the fiscal year that ended on September 30, 2003. This discussion and analysis is designed to assist the reader in focusing on the significant financial issues and activities and to identify any significant changes in financial position. We encourage readers to consider the information presented here in conjunction with our letter of transmittal found on pages vii to xi in the preceding introductory section, and the City's financial statements, which follow this information.

This is the first year that the City has presented its financial statements under the new reporting model required by Governmental Accounting Standards Board Statement Number 34 — *Basic Financial Statements — and Management's Discussion and Analysis — for State and Local Governments* (Statement 34). Because this new reporting model changes significantly not only the presentation of financial data, but the manner in which the information is recorded, prior year comparative information has not been included. The omission of this comparative information is unavoidable and unfortunately puts the reader in a less than desirable posture. In preparing the information summarized below, we have tried to keep in mind this disadvantage by expanding on the narrative with our opinion of the changes from one year to the next.

Financial Highlights

- The City's financial position remains strong as a result of the current year's operations. Overall combined assets of the City totaled \$43.6 million at the close of the 2003 fiscal year and exceeded its liabilities by approximately \$23.0 million (*combined net assets*). The unrestricted component of the City's combined net assets totaled \$5.3 million at year end. This represents the unrestricted amount available to be used to meet the City's ongoing obligations to its citizens and creditors.
- Net assets of the City's governmental activities increased by approximately \$630,000 for the year, or nearly 5 percent. At the same time, net assets of its business-type activities increased by approximately \$340,000, or nearly 4 percent.
- During 2003, the City incurred expenses that were \$304,000 more than the \$6.2 million generated in taxes and other revenues for providing its various governmental program activities and programs (excluding interfund transfers of \$935,000).
- The City's business-type activities produced net operating revenues of \$1.2 million for 2003 based on consumptive utility sales of \$5.7 million, or 20.5 percent of its operating revenues. These strong margins helped to finance interfund operating transfers and support of \$935,000 to the City's governmental activities during the year.
- The total costs incurred by the City in providing its various programs remained relatively stable in 2003. Operating expenses totaled \$6.5 million and \$4.5 million for the City's governmental activities and business-type activities, respectively.
- Unreserved fund equity in the General Fund remained approximately the same at the end of 2003 and 2002 at \$2.6 million.

- Resources earned and available for appropriation in the current year were slightly less (0.2%) than the amounts anticipated in the General Fund's operating budget. However, General Fund expenditures were well within the City's spending limits and fell 4.3% below its revised appropriations for the year.

Overview of the Financial Statements

The City's basic financial statements are comprised of three parts: 1) management's discussion and analysis, 2) the basic financial statements (including government-wide financial statements, fund financial statements, and notes to the financial statements), and 3) required supplementary information, including budgetary comparisons and other selected financial and fiduciary fund data.

Management's Discussion and Analysis (MD&A) is intended to serve as an introduction to the basic financial statements and required supplementary information. The MD&A represents management's examination and analysis of the City's financial condition and financial performance as a whole. Summary financial statement data, key financial and operational indicators used in the strategic plan, budget, and other management tools were used for this analysis.

The basic financial statements include two kinds of statements that present different views of the City. The first two statements consist of entity-wide financial statements that provide both the short- and long-term financial information about the City's overall financial status, including its governmental activities and its business-type activities. These statements report information about the City using full accrual accounting methods and economic resources focus as utilized by similar business activities in the private sector. Information concerning all of the City's assets and liabilities, both financial and capital, and short-term and long-term debt are included. Likewise, all revenues and expenses received during the year, regardless of when cash is received or paid are reported. However, rate-regulated accounting principles applicable to private sector utilities are not used by governmental utilities. The remaining statements are fund financial statements that focus on individual parts of the City government, reporting the City's operations in more detail than the government-wide financial statements. The governmental funds statements tell how general government services like public safety were financed in the short-term as well as what remains for future spending. Proprietary fund statements offer short- and long-term financial information about the activities the government operates like businesses, such as the City's water and sewer utility and solid waste collection system. Fiduciary fund statements provide information about the financial relationships in which the City acts solely as a trustee or agent for the benefit of others (like the retirement plans for the City's employees), to whom the resources in question belong.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business. The basic financial statements of the City include a statement of net assets and a statement of activities, which are described as follows:

- A statement of net assets presents information on all of the City's assets and liabilities at the end of its fiscal year, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the City's financial position is improving or deteriorating. Net assets increase when revenues exceed expenses. Increases to assets without a corresponding increase to liabilities results in increased net assets, which indicates an improved financial condition.

- The statement of activities presents the results of business operations over the course of the fiscal year and information as to how the City's net assets changed during the year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., delinquent taxes and earned but unused personal leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*government activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government services, public safety (police, fire and building inspection), highways and streets, stormwater management, economic development, and recreation and leisure services. The business-type activities of the City include its water and sewer utility and solid waste utility operations.

Fund Financial Statements

The fund financial statements provide more detailed information about the City's most significant funds - not the City as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. These funds are reported using the modified accrual accounting method, which measures cash and all other financial assets that can be readily converted into cash. Such information is useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations can be found on pages 20 and 23.

The City maintains ten individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, the Community Redevelopment Trust (special revenue) Fund, and the Stormwater Drainage (special revenue) Fund, all of which are considered to be major funds. Data from the seven other governmental funds are combined into a single, aggregated presentation and include the remainder of the City's special revenue, capital projects and debt service funds. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriations budget for each of its governmental funds in accordance with state statutes. Budgetary comparison statements have been provided for each fund to demonstrate compliance with these budgets.

The basic governmental fund financial statements can be found on pages 18 to 23 of this report.

Proprietary funds. The City maintains only one of two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Enterprise funds are used to account for the fiscal activities of the City's municipal water and sewer utility fund and solid waste utility fund operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City various departments and cost functions. The City does not presently use any internal service funds.

Proprietary fund financial statements, like the government-wide statements, provide both long- and short-term financial information. The proprietary fund financial statements provide separate financial information for the water and sewer utility and solid waste utility operations, both of which are considered to be major funds of the City.

The basic proprietary fund financial statements can be found on pages 24 to 27 of this report.

Fiduciary funds. The City is the trustee, or fiduciary, for its employees' pension plans. Fiduciary funds are used to account for resources held for the benefit of parties outside the government and are separately reported in the statements of fiduciary net assets and changes in fiduciary net assets. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the City's own programs. Rather, the City is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

The basic fiduciary fund financial statements can be found on pages 28 to 29 of this report.

Notes to the Financial Statements. The financial statements also include notes which provide required disclosures and other information that are essential to a full understanding of material data provided in the statements. The notes present information about the City's significant accounting policies, account balances and activities, material risks, obligations, commitments, contingencies and subsequent events, if any. The notes to the financial statements can be found on pages 30 to 55 of this report.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's progress in funding its obligation to provide certain pension benefits to its employees and information that further explains and supports the information in the financial statements. This section also contains budgetary comparisons for the City's governmental fund activities. Required supplementary information can be found on pages 56 to 63 of this report.

Government-Wide Financial Analysis of the City as a Whole

Net Assets. As noted previously, net assets may serve over time as a useful indicator of a government's financial position. This year, the City's combined net assets increased from \$21,993,136 to \$22,965,603. Looking at the net assets of the City's governmental and business-type activities separately, we can see that the City experienced moderate growth in the net assets of its government activities (4.7%) and in its business-type activities (4.0%).

Net assets of the City's governmental activities increased by \$630,969 for the year and totaled \$13,991,293 at the end of the fiscal year. Of this amount, approximately 83% is either restricted as to the purposes they can be used for or is invested in capital assets (land, buildings and equipment). Consequently, unrestricted net assets, the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements, totaled \$2,447,696 at the end of 2003.

Net assets of the City's business-type activities increased by \$341,498 for the year and totaled \$8,974,310 at the end of the fiscal year. Approximately 50% of its total net assets (\$4,528,390) reflects its net investment in capital assets, less that portion of related debt used to acquire those assets that is still outstanding. These capital assets are used to provide water and sewer utility services and solid waste utility services to our customers; consequently, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that under normal circumstances the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. Long-term debt obligations associated with this capitalization totaled \$14,332,071 at the end of 2003. The following is a summary of net assets at year end:

Net Assets
September 30, 2003

	Governmental <u>Activities</u>	Business-type <u>Activities</u>	<u>Total</u>
Assets:			
Current and other assets	\$ 5,434,776	6,420,621	11,855,397
Capital assets, net	<u>13,757,357</u>	<u>18,020,707</u>	<u>31,778,064</u>
Total assets	<u>19,192,133</u>	<u>24,441,328</u>	<u>43,633,461</u>
Liabilities:			
Long-term debt outstanding	4,037,789	14,567,583	18,605,372
Other liabilities	<u>1,163,051</u>	<u>899,435</u>	<u>2,062,486</u>
Total liabilities	<u>5,200,840</u>	<u>15,467,018</u>	<u>20,667,858</u>
Net Assets:			
Invested in capital assets, net of related debt	10,344,199	4,528,390	14,872,589
Restricted	1,199,398	1,603,691	2,803,089
Unrestricted	<u>2,447,696</u>	<u>2,842,229</u>	<u>5,289,925</u>
Total net assets	<u>\$ 13,991,293</u>	<u>8,974,310</u>	<u>22,965,603</u>

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

Changes in Net Assets. While the statement of net assets shows a snapshot of the City's financial position at the end of the fiscal year, the statement of changes in net assets provides answers as to the nature and source of those changes. During 2003, the City's combined net assets totaled \$23.0 million, which is up \$1.0 million over last year's reported \$22.0. During this same period, the City's revenues totaled \$12.0 million. Overall, approximately 15% of the City's total revenues come from property taxes, while almost 38% of every dollar raised comes from some type of tax collected by the City. Another 54% comes from fees charged for services, while the remaining 8% is state and federal financial assistance and interest and other earnings.

The following is a summary of changes in net assets for the year ended September 30, 2003:

Changes in Net Assets
Year Ended September 30, 2003

	<u>Governmental</u> <u>Activities</u>	<u>Business-type</u> <u>Activities</u>	<u>Total</u>
Revenues:			
Program revenues:

Increase in net assets	<u>\$ 630,969</u>	<u>341,498</u>	<u>972,467</u>

Governmental Activities

Revenues for the City's governmental activities experienced a moderate increase during 2003. Overall, the City's governmental revenues totaled \$6,180,586, which represented a slight increase of \$73,495, or 1.2% over last year's reported governmental revenues totaling \$6,107,091. This increase was primarily attributable to moderately stable increases in virtually all revenue sources, except for donations and contributions, which included a one time collection of \$150,000 for capital improvements in the prior fiscal year.

While revenue growth experienced for the year was approximately 1.2% overall, revenues earned from the assessment of ad valorem taxes remained extremely stable during 2003 with a minimal increase of approximately \$2,000. Ad valorem taxes totaling \$1,573,498 were collected in 2003 compared with \$1,571,546 in the prior year. The ad valorem millage rate for operating purposes was reduced in 2003 for the third consecutive year to 4.500 mills; approximately 5% lower than the prior year's millage rate (4.75 mills) and almost 18% lower than the millage rate in place a decade ago (5.4695 mills).

The following is a summary of the City's governmental revenues - by source:

Revenues by Source - Governmental Activities

An individual comparison of the City's functional program revenues and costs of providing program services to its citizens is useful in identifying the programs, and the extent of which each are dependent on taxes and other non-exchange revenues to subsidize their program operations. They are listed in the following graph:

Expenses and Program Revenues - Governmental Activities

Expenses for the City's governmental activities remained relatively stable during 2003. Combined governmental activities expenses totaled \$6,489,256, which represents an increase of \$68,566, or 1.1% over last year's expenses of \$6,420,690. Over the last several years, a trend has emerged with respect to a widening gap between property taxes, which are often thought of as paying for core governmental services such as police and fire, and the actual costs of those public safety expenses. At year end, this gap was over \$1.5 million.

Expenditures by Function - Governmental Activities

Business-type Activities

Business-type activities produced an increase in the City's net assets of \$341,498 during 2003. Overall, net assets from the City's business-type activities (\$8,974,310) account for only 39.1% of the City's combined total net assets at September 30, 2003. The major sources of operating revenues for the City's business-type activities include charges for services for water and sewer utilities and solid waste utilities. Combined operating revenues from these two activities increased by almost 3.8% in 2003 and totaled \$5,589,891 compared to \$5,387,306 in the prior year. Increased operational revenues were recognized by both utility systems during 2003. Investment income decreased from \$102,329 in 2002 to \$83,148 in 2003 as a combined result of lowered interest rates experienced on a national level and from the decline in surplus invested funds experienced this year. Capital contributions received in the water and sewer utility fund decreased to \$105,235 in 2003, compared to \$502,506 in the prior year. As a cost control measure, the City has continued to contract its solid waste operations with an outside contractor since 1999.

A comparison of the City's functional program revenues and costs of providing business-type services to its customers is useful in identifying the capabilities of producing revenues sufficient to operate their programs.

Operating Expenses and Program Revenues - Business-type Activities

Operating expenses of the business-type activities increased in 2003 to \$3,879,469, compared to \$3,565,852 in 2002. This increase, while nominal, closely paralleled inflation and growth in the demand for services.

Financial Analysis of the City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As the City completed the current fiscal year its governmental funds reported a combined fund balance of \$4,222,723, which was \$214,391, or 4.8%, below the \$4,437,114 reported last year. Approximately 82.1% of this amount (\$3,465,193) constitutes unreserved fund balance, which is available for spending at the government's discretion. The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed 1) to liquidate contracts and purchase orders of the prior period (\$396,574), 2) to reflect the prior advance of resources to other funds which will be paid in subsequent years (\$59,700), 3) to pay debt service (\$253,866), and 4) to finance specialized law enforcement investigations (\$47,390).

The general fund is the chief operating fund of the City. As of September 30, 2003, the unreserved fund balance in the general fund totaled \$2,552,300, while total fund balance reached \$2,675,986. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents approximately 40.9% of total general fund expenditures (\$6,238,718), while total fund balance represents 42.9% of that same amount. City officials have established a target threshold of 25% in unreserved funds compared to General Fund expenditures. The current unreserved balance exceeds that target.

Fund balance in the general fund decreased by \$189,771 during the current fiscal. The significant portion of this decrease was planned at the onset of the current fiscal year at which time \$600,700 in prior year surplus funds were appropriated to finance these expenditures.

Proprietary Funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets in the Water and Sewer Fund at the end of the current fiscal year amounted to \$2,025,866. This year's increase of \$360,580 was composed of net earnings from operations of \$255,345 and capital contributions of \$105,235. Current year earnings were also reported after transfers to the General Fund of \$465,000.

Unrestricted net assets in the Solid Waste Fund totaled \$816,363 at the end of the current fiscal year. While this fund incurred a net loss of \$19,082, this amount was reported net of transfers to the General Fund in the amount of \$470,000.

General Fund Budgetary Highlights

Over the year, the City Commission revised the General Fund operating budget to reflect known changes in its operating activities and spending needs. Differences between the original enacted budget and the final amended budget were not significant.

The City's overall revenue projections were reduced by \$25,700, which represents a 0.5% decrease in anticipated funding. However, expenditure appropriations were increased by \$255,000 near the end of the fiscal year in an effort to meet all unanticipated spending requirements. These appropriations were funded by a corresponding increase in the appropriation of prior years' surplus funds to an amount not to exceed \$600,700 for the year.

Actual earned revenues were only \$11,514 less than the amounts anticipated to be received during the year, while actual expenditures incurred were \$420,982 less than anticipated for the year. Virtually all of the City's departments contributed to a cutback in spending to achieve the current year's operating results.

Capital Assets and Debt Administration

Capital Assets. At September 30, 2003, the City's investment in capital assets for its governmental and business type activities totaled \$31,778,064 (net of accumulated depreciation of \$18,595,971). This investment in capital assets, net of depreciation, for all activities is reflected in the following schedule.

Capital Assets September 30, 2003

	Governmental Activities	Business-type Activities	Total
Land	\$ 1,950,539	154,739	2,105,278
Capital assets not being depreciated	1,992,015	238,716	2,230,731
Buildings	3,307,223	6,341,885	9,649,108
Improvements other than buildings	1,369,582	8,016,115	9,385,697
Equipment and furniture	1,294,844	3,269,252	4,564,096
Infrastructure	<u>3,843,154</u>	<u>0</u>	<u>3,843,154</u>
Net total	<u>\$ 13,757,357</u>	<u>18,020,707</u>	<u>31,778,064</u>

Additional information on the City's capital assets can be found in Note 8 to the financial statements.

Long-term Debt. At year end, the City had \$19,771,566 in bonds, notes and other long-term obligations outstanding, all of which are secured solely by specified revenue sources. More detailed information about the City's long-term debt is presented in Note 9 to the financial statements.

The City has an outstanding revenue bond obligation in the amount of \$13,535,000 at year end. The proceeds of these bonds were used to finance improvements to the City's water and sewer utility system and to refund previously issued bonds outstanding. These bonds are payable from revenues generated from the water and sewer system and are payable serially through 2022.

The City has two outstanding revenue note obligations totaling \$709,262 at year end. The proceeds from these obligations were used to finance the acquisition of a new fire truck and to construct improvements to the City gymnasium and City Hall. These notes are payable from all of the City's general revenues with the exception of its ad valorem tax revenue, and by a pledge on the City's utility service tax revenues, and are due in varying amounts through 2008.

The City has two low-interest rate revenue note obligations payable to the State of Florida, Department of Environmental Protection State Revolving Fund Loan Program totaling \$4,887,284, in aggregate, at year end. The proceeds of the first FDEP loan (issued in 1998) were used to finance the construction of wastewater infiltration and inflow correction facilities. The second FDEP loan is currently being used to finance construction of needed stormwater drainage improvements. These notes are secured by the City's water and sewer utility and stormwater utility revenues, respectively, and are payable in varying amounts through 2024.

The City has an outstanding unsecured loan obligation payable to the County of Volusia, Florida, in the amount of \$15,389 (discounted at 5%) which will be paid in full at the end of 2004. This is a non-interest bearing obligation that was used to finance the City's share of costs to acquire 800mhz radio systems in conjunction with a countywide emergency response program that was initiated in 1994.

Economic Factors and Next Year's Budgets and Rates

Many factors are considered each year by the City Commission in its efforts to establish an operating budget, to evaluate its personnel needs, and to develop uniform user fees that are reasonable, and more importantly, capable of cost recovery. Some of the major factors considered in this process are the local economy, civilian labor force, unemployment rates, and inflation rates.

Many factors are considered each year by the City Commission in its efforts to establish an operating budget, to evaluate its personnel needs, and to develop uniform user fees that are reasonable, and more importantly, capable of cost recovery. Some of the major factors considered in this process are the local economy, civilian labor force, unemployment rates, and inflation rates.

- The most recent estimates available for unemployment data in Volusia County, Florida are compiled by the Florida Agency for Workforce Innovation on the Florida Research and Economic Database (FRED). This agency estimates a countywide unemployment rate of 4.5% at the end of September 2003, which is slightly higher than the 4.3% rate experienced one year earlier. The current year estimate is the same for the state's 4.5% unemployment rate and better than the national unemployment rate of 6.0% at September 2003.
- Inflationary trends for Volusia County compare favorably with those trends experienced at the state and national levels.

During the current fiscal year, unreserved fund balance in the general fund decreased slightly to \$2,552,300. Based on current year budget estimates for 2004, the City has determined that it will be necessary to include approximately \$1,200,000 of prior years' surplus funds in next year's operating budget. This is planned for major improvements to the Parks and Recreation facilities, public works security systems, new medians landscaping, computer upgrades, additional paving and sidewalks projects, and an expansion of the Fire Department to the west side of the City. It has been anticipated that all of the City's spending requirements will be met with current financial resources along with an approximate 9.3% decrease in the ad valorem tax millage rate for the 2004 fiscal year.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. Questions concerning any of the information provided in this report, or requests for additional information should be addressed to the Office of the Finance Director, City of Holly Hill, Florida, 1065 Ridgewood Avenue, Holly Hill, Florida 32117-2898.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO
THE STATEMENT OF ACTIVITIES**
For the Fiscal Year Ended September 30, 2003
CITY OF HOLLY HILL, FLORIDA

Statement 4A

Net change in fund balances - total governmental funds\$ (214,391)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is depreciated over their estimated useful lives. This is the amount by which capital outlays exceeded depreciation expenses for the current period:

Capital outlay expenditures.....	3,053,421	
Depreciation expense.....	<u>(577,793)</u>	2,475,628

Bond and loan proceeds are reported as financing sources in the governmental funds, however, issuing debt increases long-term liabilities in the statement of net assets. Debt proceeds issued in the current period (1,695,651)

Repayment of bond and note principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. Principal repayment in the current period 175,054

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds (increase in delinquent taxes)..... 4,639

Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the statement of activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is not recognized under the modified accrual basis of accounting until due, rather than as it accrues. This adjustment is for the following items:

Change in compensated absences liabilities.....	(99,514)	
Change in accrued interest on bonds and notes payable	<u>(14,796)</u>	<u>(114,310)</u>

Change in net assets of governmental activities\$ 630,969

The accompanying notes are an integral part of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS

THE UNIVERSITY OF CHICAGO

NOTES TO THE FINANCIAL STATEMENTS

September 30, 2003

CITY OF HOLLY HILL, FLORIDA

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of City of Holly Hill, Florida (the "City"), have been prepared in conformance with accounting principals generally accepted in the United States of America as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for promulgating governmental accounting and financial reporting principles. The following is a summary of the City's significant accounting policies:

A. Reporting Entity

The City is a municipal corporation created by the Laws of Florida, Chapter 67-1274, located in Volusia County. The City was originally incorporated under the general laws of Florida on July 1, 1901 (Records of Incorporations, Volusia County, Vol. I, p. 101). This incorporation was validated in 1903 by Laws of Florida, Chapter 5346 (1903). The legislative branch of the City is composed of an elected five-member City Commission consisting of the Mayor and four commissioners. The City Commission is governed by the City Charter and by state and local laws and regulations. The City Commission is responsible for the establishment and adoption of policy. The execution of such policy is the responsibility of the Commission-appointed City Manager.

The accompanying financial statements present the financial position, results of operations and cash flows of the applicable funds controlled by or dependent upon the City (the primary government). In evaluating the City as a reporting entity, management has addressed all potential component units for which the entity may or may not be financially accountable and, as such, be included within the City's financial statements.

Blended Component Unit. The City of Holly Hill Community Redevelopment Fund was created by Ordinance 2426 to account for the receipt and expenditure of property tax revenues from the tax increment financing district to support City redevelopment. Although legally separate, the same elected City Commission members serve as the governing board of the Community Redevelopment Fund. Since the City is financially accountable for the activities of the Fund, its governing board is the same, and its relationship to the City is significant, its financial activities are reported on a blended basis as if it were part of the primary government as a special revenue fund.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements, comprised of the Statement of Net Assets and the Statement of Activities, report aggregated information for the overall government for all of the activities of the primary government and the discretely presented component units. The primary government is reported in two columns to separately report governmental activities from business-type activities. These statements do not report fiduciary funds or fiduciary component units such as retirement trust funds. Those activities are reported only in fund financial statements. The effect of interfund activity has been removed from these statements as is further disclosed below under the heading *Interfund Activity Eliminations and Reclassifications*.

NOTES TO THE FINANCIAL STATEMENTS - (Continued)

September 30, 2003

CITY OF HOLLY HILL, FLORIDA

Governmental activities, which normally are supported by taxes, intergovernmental revenues, and other nonexchange revenues are reported separately from business-type activities, which are financed wholly or partially by fees charged to external parties for goods or services and are reported in enterprise funds.

The Statement of Net Assets presents the overall government's financial position at year-end. The Statement of Activities presents direct expenses of a given function or segment offset by program revenues for the fiscal reporting period. The resulting net expense or revenue is then totaled and offset by general revenues producing the aggregate change in net assets for the period. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment of the government, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other nonexchange revenues not properly included among program revenues are reported as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual business-type funds are reported in separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or as soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Taxes, intergovernmental revenue, licenses and permits, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Revenues, expenses, gains, losses, assets, and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of Governmental Accounting Standards Board Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*. Nonexchange transactions are grouped into four classes, based on their principal characteristics. The accounting treatment for each type of transaction is as follows:

NOTES TO THE FINANCIAL STATEMENTS - (Continued)

September 30, 2003

CITY OF HOLLY HILL, FLORIDA

Derived Tax Revenue, defined as assessments imposed on exchange transactions. Examples include: sales taxes, franchise tax, utility taxes, etc. Assets from derived tax revenue are recognized in the period when the exchange transaction on which the tax is imposed or when resources are received, whichever occurs first. Revenues are recognized, net of estimated uncollectible amounts, in the same period that the assets are recognized. Resources received in advance are recorded as deferred revenue until the period of the exchange.

Imposed Nonexchange Revenue, result from assessments on nongovernmental entities, other than assessments on exchange transactions. Examples include: ad valorem (property) taxes, fines and penalties, and property forfeitures. Assets from imposed nonexchange revenues are recognized in the period when an enforceable legal claim to the assets arises or when the resources are received, whichever occurs first. Property taxes are recognized in the period for which the taxes are levied. All other imposed nonexchange revenues are recognized in the same period that the assets are recognized.

Government-mandated Nonexchange Transactions, frequently establish eligibility requirements before a transaction can occur. Examples include federal awards and state financial assistance. Until the requirements are met, the recipient does not have a receivable and the recognition of revenue received in advance is deferred. The providers (usually federal, state, and county governments) often offer resources on a reimbursement (“expenditure-driven”) basis at the time the recipient has incurred allowable costs under the applicable program.

Voluntary Nonexchange Transactions, result from legislative or contractual agreements other than exchanges, entered into willingly by two or more parties. Examples include certain grants, entitlements, and donations by nongovernmental entities. Principal characteristics of these types of transactions are (1) they are not imposed on the provider or recipient, and (2) fulfillment of eligibility requirements is essential for a transaction to occur. Assets and revenues are recognized when all applicable eligibility requirements, including time requirements, are met. Resources received in advance are reported as deferred revenue.

Proprietary fund and pension trust fund financial statements are reported using the accrual basis of accounting. Under this method, revenue is recorded when earned and expenses are recorded at the time liabilities are incurred. Based on the accounting and reporting standards set forth in Government Accounting Standards Board Statement No. 20, “*Accounting and Financial Reporting for Proprietary Funds and other Governmental Entities that use Proprietary Fund Accounting*”, the City has opted to apply only those accounting and reporting pronouncements issued by the GASB subsequent to November 30, 1989, as it pertains to the accounting for proprietary fund activity.

The City’s accounts are organized on the basis of funds each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The focus of the governmental and proprietary fund financial statements is on major funds, as defined and determined based on criteria established under Governmental Accounting Standards Boards Statement No. 34.

NOTES TO THE FINANCIAL STATEMENTS - (Continued)

September 30, 2003

CITY OF HOLLY HILL, FLORIDA

The City reports the following major governmental funds:

General Fund - The General Fund is the principal fund of the City which accounts for all financial transactions not accounted for in other funds. The majority of current operating expenditures of the City other than proprietary fund activities are financed through revenues received by the General Fund.

Community Redevelopment Trust Fund - The Community Redevelopment Trust Fund is a special revenue fund established by the City for the economic development of designated areas of the City that receives special incremental ad-valorem tax levies to pay for rehabilitation and redevelopment of the specified area in need of improvement to sustain the tax base.

Stormwater Drainage Fund - The Stormwater Drainage Fund is a special revenue fund used to account for user charges assessed to citizens for the operation, maintenance and improvement of the City's stormwater drainage systems. Federal awards and state financial assistance are also a major source of revenue to assist with the financing of capital improvements to these facilities.

The City reports the following major proprietary funds:

Water and Sewer System - The Water and Sewer System Fund accounts for the costs and recovery of costs in the form of user charges related to the production, treatment and distribution of potable water, along with the collection, treatment and disposal of sewage waste with the City. The maintenance and improvement of utility plant required to provide these goods and services are financed primarily from user charges. Physical plant expansion is financed primarily from revenue bond obligations and other long-term debt borrowings.

Solid Waste Fund - The Solid Waste Fund provides the community with refuse and recycling services provided by third-party contracted vendors, the costs of which are primarily recovered by user charges.

Additionally, the City reports the following non-major fund types:

Special Revenue Funds - These funds are used to account for the proceeds of specific revenue sources (other than special assessments, or capital projects) which are legally restricted to finance particular functions or activities of the City. These funds include the Law Enforcement Trust Fund, Youth Center Fund, Community Development Block Grant Fund, and the Local Law Enforcement Block Grant Fund.

Debt Service Funds - Debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. This fund type is used to provide for the debt servicing of the City's outstanding State Revolving Fund Loan commitments, dated January 30, 2001, September 10, 2001, July 24, 2002 and June 24, 2003.

Capital Projects Funds - Capital projects funds are used to account for the financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary and trust funds).

NOTES TO THE FINANCIAL STATEMENTS - (Continued)

September 30, 2003

CITY OF HOLLY HILL, FLORIDA

Pension Trust Funds - Pension trust funds (Municipal Police Officers' Retirement Fund and the Municipal Firefighters' Pension Trust Fund) are accounted for by the City to provide data on the accumulation of financial resources to pay pension benefits to qualified participants in the City's Police and Fire pension trust funds.

Amounts reported in the funds as interfund receivables and payables have been eliminated in the governmental and business-type activities columns, except for the net residual amounts due between governmental and business-type activities, which are presented as internal balances due to and due from these different types of activities within the primary government.

The City reports as program revenues: (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's principal ongoing activities. For the City, operating revenues come from municipal golf course greens fees and related charges and refuse and recycling collection fees for sanitation services, which are the principal ongoing operations of the City's Golf Course and Sanitation Fund. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

D. Assets, Liabilities, and Net Assets or Equity

1. Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The City's investment policies are governed by state statutes and local resolution. These policies authorize the City to invest in bonds, notes, certificates of indebtedness, treasury bills, or other securities which are guaranteed by the full faith and credit of the United States of America, interest bearing savings accounts, interest bearing certificates of deposit and interest bearing time deposits.

All of the City's investments are reported at fair value, with the exception of investments in the 2a7-like pools (State Board of Administration Local Government Surplus Trust Fund Pool) which are stated at cost, or amortized cost, and are the same as the fair value of pool shares. All fiduciary (police and fire pension) fund investments are stated at fair value.

NOTES TO THE FINANCIAL STATEMENTS - (Continued)

September 30, 2003

CITY OF HOLLY HILL, FLORIDA

2. *Receivables and payables*

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances," when applicable.

All trade and property tax receivables are reported net of an allowance for uncollectible accounts, which is based upon management's analysis of historical trends. Utility operating sales are generally recognized on the basis of cycle billings rendered quarterly. Unbilled accounts receivable are accrued by the City at September 30th, to recognize the sales revenues earned between the last meter reading date made in mid-September through the end of the fiscal year.

3. *Inventories and Prepaid Items*

When determined material, the cost of inventory is accounted for on the consumption basis wherein inventories are charged as expenditures when used, rather than when purchased. All inventories are valued at cost, which approximates market, by using the first-in, first-out valuation method. The effect of this method is to flow the costs of the materials and supplies in the order in which they are purchased and to assign a balance sheet inventory valuation more nearly at current replacement value.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. *Restricted Assets*

Certain proceeds of the City's revenue note obligations, as well as certain resources set aside for their repayment, are classified as restricted assets in the government-wide financial statements because their use is limited by applicable legal indentures imposed by applicable bond covenants and other legal indentures. The restricted assets are used to report resources set aside to 1) provide a reserve for debt service, 2) provide a reserve for maintenance and replacement costs, and 3) acquire capital assets.

5. *Capital Assets*

Capital assets include property, plant, equipment and infrastructure assets. The terms general capital assets and general infrastructure assets relate only to the assets associated with governmental activities. Whereas the terms capital assets and infrastructure assets relate to all such assets belonging to the City. To ease implementation efforts, GASB Statement No. 34, provides the City with an extended transition period for reporting existing general infrastructure assets. However, the City has elected to report all known infrastructure assets and related depreciation expense on these assets, for those assets acquired up to, and including, the year of implementation of the pronouncement in the entity-wide statement of net assets and statement of activities.

NOTES TO THE FINANCIAL STATEMENTS - (Continued)

September 30, 2003

CITY OF HOLLY HILL, FLORIDA

Capital assets are defined by the City as assets with an initial individual cost of \$1,000 or more and an estimated useful life of more than one-year. The capitalization policy for building and improvements other than buildings require assets with an initial cost to be \$5,000 or more before it is capitalized. For all infrastructure assets, costs must exceed \$5,000 before the assets are capitalized. Such assets are recorded at historical cost or estimated historical cost, if purchased or constructed. Contributed assets are recorded at fair market value on the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized if they meet the dollar threshold above for capitalization.

Proprietary fund capital assets that are constructed include construction period interest that is capitalized net of interest earned on unexpended construction funds in accordance with the applicable provisions of Financial Accounting Standard No. 62, and depreciated over the remaining useful life of the related asset.

Maintenance and repairs of property and replacements and renewals of items determined to be less than units of property, are charged to operating expenses.

Depreciation is reported for the primary government using the straight-line method (half-year convention in year of acquisition) calculated on a service-life basis to amortize the cost of the asset over their estimated economic useful lives, which are as follows:

<u>Assets</u>	<u>Years</u>
Buildings	20-50 years
Improvements other than buildings	10-50 years
Equipment	3-30 years
Infrastructure	20-50 years

6. *Compensated Absences*

The portion of employees payroll costs paid subsequent to year-end attributable to services performed prior to year-end, including accumulated unpaid vacation and sick-leave, is recorded and recognized as a current liability. The portion of the liability for compensated absences attributable to periods beyond the current year are recognized as a long-term liability.

Employee vacation leave is based upon the number of years of employment with the City and a portion must be used as time off annually and the remainder can be used as time off or accrued. The maximum amount accrued varies with the general and fire personnel and the police personnel, 90 days and 93.5 days, respectively. Upon termination, the employee receives a cash benefit equal to the number of days accrued based on the employee's current wage rate.

Sick leave is granted to all full time employees. General and fire personnel can accumulate, at a rate of one day per month, up to a maximum of 90 days. Upon retirement or death, employees are paid 100% of their accumulated unpaid sick leave. Upon resignation, only those employees with 15 years of service are paid 50% of their accumulated unpaid sick leave. Police personnel are granted extended leave to be used for illnesses involving absences of three or more days. The extended leave accrues at a rate of four hours per month. There is no maximum accumulated amount, however payment is based on the number of years of service with a maximum of 825 hours.

NOTES TO THE FINANCIAL STATEMENTS - (Continued)

September 30, 2003

CITY OF HOLLY HILL, FLORIDA

7. *Deferred Revenue*

Deferred revenues are reported when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred revenues also arise when resources are received by the City before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the City has a legal claim to the resources, the liability for deferred revenue is removed and revenue is recognized.

8. *Long-term Obligations*

In the government-wide financial statements and proprietary fund financial statements, long-term debt obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond discounts and debt issuance costs are deferred and amortized over the term of the bonds using the bond outstanding method which approximates the effective interest method. Unamortized bond discounts are presented in aggregate on the financial statements as a reduction of the carrying cost of the related long-term debt. Unamortized debt issuance costs are presented as other assets. In the fund financial statements, governmental fund types recognize premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

9. *Fund Equity*

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

10. *Use of Estimates*

Management uses estimates and assumptions in preparing financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenue and expenses. Actual results could vary from the estimates assumed in preparing the financial statements.

NOTE 2 - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets:

Following the governmental fund balance sheet is a reconciliation between fund balance - total governmental funds and net assets - governmental activities as reported in the government-wide statement of net assets. A detailed explanation of these differences is provided in this reconciliation.

NOTES TO THE FINANCIAL STATEMENTS - (Continued)

September 30, 2003

CITY OF HOLLY HILL, FLORIDA

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities:

Following the governmental fund statement of revenues, expenditures, and changes in fund balances, there is a reconciliation between net changes in fund balances - total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities. A detailed explanation of these differences is provided in this reconciliation.

NOTE 3 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Information

Annual budgets for all governmental and proprietary funds were adopted in compliance with Florida law. The basis on which the budgets are prepared is consistent with the basis of accounting utilized by the various fund types. The governmental funds' budgets are prepared on the modified accrual basis of accounting. The proprietary funds' budgets are prepared on a full accrual basis of accounting. The City uses the following procedures in establishing the budgetary data reflected in the accompanying financial statements:

- On or about July 1st, the City Manager submits a preliminary budget to the City Commission for the ensuing fiscal year.
- Budget workshop sessions are scheduled by the City Commission, as needed.
- A general summary of the budget and notice of public hearing is published in a local newspaper.
- Prior to October 1st, the budget is legally enacted through passage of an ordinance.
- The City Commission, by ordinance, may make supplemental appropriations in excess of those estimated for the year up to the amount of available revenue in accordance with Sections 54 to 57 of the City Charter. Prior to the end of the fiscal year, supplemental appropriations are made for unanticipated spending requirements by the Commission.
- The City Commission must approve all inter-departmental budget amendments and/or appropriations transfers.
- The City Manager may transfer funds between line-item appropriations within a department at the request of a department head in accordance with Article I, Section 30-27 of the City's Code of Ordinances.
- Budgetary control is exercised at the department level.
- Every appropriation lapses at the close of the fiscal year.

NOTES TO THE FINANCIAL STATEMENTS - (Continued)

September 30, 2003

CITY OF HOLLY HILL, FLORIDA

B. Excess of Expenditures over Appropriations

For the year ended September 30, 2003, total fund expenditures exceeded budgetary appropriations in the nonmajor Youth Center Fund by \$23,890. The over-expenditure in this fund was funded by greater than anticipated revenues (grant funds and external contributions).

NOTE 4 - PROPERTY TAX CALENDAR

Under Florida law, the assessment of all properties and the collection of all county, municipal and school district property taxes are consolidated in the offices of the County Property Appraiser and County Finance Director. The laws of the state regulating tax assessment are also designed to assure a consistent property valuation method statewide. State Statutes permit municipalities to levy property taxes at a rate of up to 10 mills. The millage rate assessed by the City was 4.5 mills for the year ended September 30, 2003.

The property tax calendar is as follows:

Valuation Date	January 1
Property Appraiser prepares the assessment roll with values as of January 1, submits preliminary roll for approval by the State and notifies each taxing authority of their respective valuations.	July 1
Within 35 days of certification of value, the City must advise the Property Appraiser of the prior year millage rate, current year proposed millage rate, current year rolled-back rate and the date, time and meeting place of the tentative budget hearing.	August 4
City Commission holds two required public hearings and adopts a budget and ad valorem tax millage rate for the coming fiscal year.	September 18
Property Appraiser certified the assessment roll and all real and tangible personal property taxes are due and payable (Levy date).	November 1
A Notice of Taxes is mailed to each property owner on the assessment roll. Taxes are paid November 2002 through March 2003, with the following applicable discounts:	November through March

<u>Month Paid</u>	<u>Discount Percent</u>
November	4
December	3
January	2
February	1
March	0

NOTES TO THE FINANCIAL STATEMENTS - (Continued)
September 30, 2003
CITY OF HOLLY HILL, FLORIDA

All unpaid taxes on real and tangible personal property become delinquent.	April 1
A list of unpaid tangible personal property taxes and a list of unpaid real property taxes are advertised.	April/May
Tax certificates are sold on all real estate parcels with unpaid real property taxes (Lien date).	June 1
A court order is obtained authorizing the seizure and sale of personal property if the taxpayer fails to pay the delinquent taxes	August 28

NOTE 5 - CASH DEPOSITS AND INVESTMENTS

A. Deposits

Pursuant to the applicable provisions of Chapter 280, Florida Statutes, (The Florida Security for Public Deposits Act), the State of Florida, Department of Insurance, Bureau of Collateral Securities, and the Department of Treasury have established specific requirements relative to security and collateralization for public deposits. Accordingly, banks qualifying as a public depository in the State of Florida must adopt the necessary procedures outlined in these statutes and meet all of the requirements of this chapter to be designated by the State Treasurer as eligible to receive deposits from municipal depositors. Collateral having a market value equal to 50% of the average daily balance for each month of all public deposits in excess of any applicable depository insurance is required to be pledged or deposited with the State Treasurer to secure such deposits. Additional collateral, up to a maximum of 125% may be required if deemed necessary under the conditions set forth in the Act. Securities eligible to be pledged as collateral are generally limited to obligations of the United States government and any state thereof and are held in the name of the State Treasurer's office. Compliance with the provisions of Chapter 280, F.S., is monitored by the Department of Insurance.

At September 30, 2003, the carrying amount of the City's aggregate deposits, including money market funds with financial institutions, was \$458,019 and the financial institution balances totaled \$450,865, exclusive of repurchased investments of \$618,000. The bank balances are insured by federal depository insurance and secured in accordance with the statutory provisions of the Florida Security for Deposits Act for those amounts identified below as "insured." The money market funds held by trustees in the Municipal Police Officers' Retirement Trust and the Municipal Firefighters' Pension Trust are uninsured, uncollateralized funds. Included in the carrying amount of the these funds is \$1,791 in petty cash, change funds, and undeposited receipts.

NOTES TO THE FINANCIAL STATEMENTS - (Continued)

September 30, 2003

CITY OF HOLLY HILL, FLORIDA

B. Investments

The City's investment policies are governed by state statutes and local ordinances. The basic allowable investment instruments include: Local Government Surplus Funds Trust Fund; negotiable direct obligations of, or obligations the principal and interest of which are unconditionally guaranteed by, the U.S. Government; interest bearing time deposits or savings accounts in banks organized under the laws of this state, in national banks organized under the laws of the United States and doing business and situated in this state, in savings and loan associations which are under state supervision or in federal savings and loan associations located in this state and organized under federal law and federal supervision; money market accounts that invest in U.S. Government obligations; obligations of Federal Farm Credit Banks, the Federal Home Loan Mortgage Corporation, including Federal Home Loan Mortgage Corporation participation certificates; or the Federal Home Loan Bank or its district banks or obligations guaranteed by the Government National Mortgage Association; obligations of the Federal National Mortgage Association including Federal National Mortgage Association participation certificates and mortgage pass-through certificates guaranteed by the Federal National Mortgage Association.

The City is a member of the Local Government Surplus Funds Trust Fund that is administered by the State Board of Administration of Florida (SBA). This fund is a 2a-7 like fund which has the characteristics of a money market fund. Thus its cost is its fair value. Funds that have not been transferred to the state investment pool are placed in an overnight repurchase agreement. The repurchase agreement balance is collateralized with securities held by the City's agent in the agent's name.

The City's investments are categorized into the following three categories of credit risk:

- Category 1 includes investments that are insured, registered, or for which the securities are held by the City or its agent in the City's name.
- Category 2 includes uninsured and unregistered investments for which the securities are held by the banks' trust departments or agents in the City's name.
- Category 3 includes uninsured and unregistered investments for which the securities are held by the banks, or by their trust departments or agents but not in the City's name.

CITY OF HOLLY HILL, FLORIDA

NOTE 9 - LONG-TERM DEBT

Governmental Activities

The City has entered into several long-term debt obligations where it pledges specific income streams or income derived from the acquired or constructed assets to pay debt service. During the current year, proceeds of \$1,781,001 were received to finance construction projects to expand the City's primary stormwater management and collection facilities under loans from the Florida Department of Environmental Protection State Revolving Fund loan program. The City's revenue obligations outstanding at September 30, 2003 are summarized as follows:

Revenue Notes Payable:

Noninterest bearing note payable to Volusia County, Florida, dated January 24, 1995; \$7,984 due semi-annually through 2004, with interest imputed at 5%; unsecured (anticipated to be paid with unencumbered General Fund revenue)	\$ 15,389
---	-----------

Promissory notes payable to the State of Florida, Department of Environmental Protection-Clean Water State Revolving Fund Loan Agreement - 3.27% construction loan (\$361,764) dated January 30, 2001; 3.16% loan (\$928,400) dated September 10, 2001; 2.12% loan (\$1,579,330) dated July 24, 2002; 1.99% loan (\$2,795,506) dated June 27, 2003, in the aggregate amount of \$5,665,000 for local stormwater pollution control and drainage improvements, with combined total payments of \$181,075, due semi-annually, on January 15 and July 15, commencing on January 15, 2004 through 2024; secured with stormwater management service charges	2,688,507
---	-----------

Promissory notes payable to Sun Bank of Volusia County: 5.30% Non-Ad Valorem Revenue Note, Series 2001 dated February 20, 2001; \$23,692 due semi-annually through 2006; secured by all non-ad valorem revenues of the city	76,275
4.84% Utility Service Tax Revenue Note, Series 1998A, dated April 14, 1998; \$78,687 due semi-annually through 2008; secured by utility service tax revenues	<u>632,987</u>

Total revenue notes payable	3,413,158

NOTES TO THE FINANCIAL STATEMENTS - (Continued)

September 30, 2003

CITY OF HOLLY HILL, FLORIDA

The authorization for the Water and Sewer System Refunding Revenue Bonds, Series 2002 (the "Series 2002 bonds") provides that the City will not issue additional obligations unless they are payable on a parity with the Series 2002 bonds and only upon the conditions and within the limitations of the authorizing resolution. The bonds are payable from and secured by a first lien upon and pledge of the net revenues derived from the operation of the City's water and sewer system. The bonds do not constitute general indebtedness of the City, and the City is not obligated to levy any taxes for the payment thereof.

Under the terms of its bond resolution and revenue note obligations, the City has agreed to maintain certain restricted funds and to comply with the covenants contained in such agreements which require specific actions to be taken by the City. The resolution also provides that monies on deposit in the various bond accounts may be invested in permitted investments, the definition of which includes various securities backed by the full faith and credit of the U.S. Government or its agencies, depository accounts fully insured by the Federal Deposit Insurance Corporation or the Federal Savings and Loan Insurance Corporation, commercial paper, money market funds, and bankers' acceptances meeting requirements defined in the bond resolution, units of participation in the Local Government Surplus Funds Trust Fund, and any other investments allowed by Florida law.

The note payable to the State of Florida, Department of Environmental Protection, State Revolving Fund Loan is secured by pledged revenues of the City; however, the lien on the pledged revenues is subordinate to the right of payment and security to the Series 2002 bonds.

NOTE 10 - PENSION PLANS

General Employees - Defined Benefit Pension Plan

Plan Description. (Pre-01/01/96 general employees) The City contributes to the Florida Retirement System (the "FRS") of the State of Florida, a cost-sharing, multiple-employer public employee retirement system created in December, 1970, that acts as a common investment and administrative agent for municipalities and other qualifying political subdivisions in the State of Florida. The pension plan, which is administered by the State of Florida, Department of Administration, Division of Retirement, provides retirement and disability benefits and death benefits to plan members and beneficiaries. All retirement legislation must comply with Article X, Section 14 of the State Constitution and with Part VII, Chapter 121, F.S. Both of these provisions require that any increase in retirement benefits must be funded concurrently on an actuarially sound basis. The Florida Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to Florida Retirement System, Department of Administration, Division of Retirement, Cedars Executive Center, Building C, 2639 North Monroe Street, Tallahassee, FL 32399-1560, or calling 850-488-5706.

Funding Policy. The FRS funding policy provides for required monthly employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll are adequate to accumulate sufficient assets to pay benefits when due. Level percentage of payroll employer contribution rates, established by state law, are determined using the entry-age actuarial funding method. If an unfunded actuarial liability reemerges, future plan benefit changes, assumption changes, and methodology changes are amortized within 30 years, using level dollar amounts. Except for gains reserved for rate stabilization, it is anticipated future actuarial gains and losses are amortized on a rolling 10% basis, as a level dollar amount.

NOTES TO THE FINANCIAL STATEMENTS - (Continued)

September 30, 2003

CITY OF HOLLY HILL, FLORIDA

The required contributions to the plan for the fiscal years ended September 30, 2003, 2002, and 2001 were \$70,284, \$85,244, and \$114,100, respectively. There were no employee contributions made during these years. The following is a summary of employer contribution percentages for qualifying compensation paid to general participants/DROP participants in effect during each of the past three fiscal years ended September 30, 2003, 2002, and 2001 by retirement plan periods:

	<u>Regular</u> <u>Employees</u>	<u>DROP</u> <u>Employees</u>
From July 1, 2000 to June 30, 2001	9.15%	12.50%
From July 1, 2001 to June 30, 2002	7.30%	12.67%
From July 1, 2002 to June 30, 2003	5.76%	9.11%
From July 1, 2003 to September 30, 2003	7.39%	9.11%

General Employees - Defined Contribution Plan

The City contributes to the Florida Municipal Pension Trust Fund, a defined contribution plan which is administered by Florida League of Cities, Inc., P. O. Box 1757, Tallahassee, FL 32302-1757. Under Resolution No. 61 and Ordinance No. 2417, as amended, the City established this plan for all full time employees hired on or after January 1, 1996 by revoking its participation in the Florida Retirement System pursuant to Chapter 95-338, Laws of Florida with respect to such employees.

The City, as the sponsoring employer, is responsible for amending pension provisions and contribution requirements for the plan. The plan was amended during the year to include recent income tax law provisions applicable to employee benefit plans that were applicable to the plan. The City has the power to amend plan provisions at any time.

All qualified employees at least 18 years of age become eligible to participate in the plan on the first date of the month following the date of employment. Employees voluntarily contribute to the plan. If employees contribute 2% or more to the plan, the city contributes 10% to the plan. To accommodate both employer and employee contributions the City utilizes a Section 457(b) deferred compensation plan to receive employee contributions and a Section 401(a) plan to receive employer contributions.

Employees immediately vest in the elective deferral contributions made to the Plan. For bargaining unit employees, a graded vesting schedule for employer contributions provides for 100% vesting after 10 years of service. Non-bargaining unit employees are 100% vested after one completed year of service to the City. The vested portions of the accounts or contributions to the plan are available to the participants immediately upon termination of service. Normal retirement benefits are available upon attaining age 60. The plan does not provide for an early retirement date prior to the normal retirement date of age 60.

The required employer contributions to the Plan for the fiscal years ended September 30, 2003, 2002, and 2001 were \$45,362, \$82,841, and \$51,855, respectively. Employee contributions to the Plan for the fiscal years ended September 30, 2003, 2002, and 2001 were \$58,514, \$38,450, and \$14,397, respectively.

NOTES TO THE FINANCIAL STATEMENTS - (Continued)

September 30, 2003

CITY OF HOLLY HILL, FLORIDA

As a part of the plan, account forfeitures are accumulated to offset the cost of future City contribution requirements. For the year ended September 30, 2003, accumulated plan forfeitures totaling \$78,825 were used to offset current year funding requirements. At September 30, 2003, cumulative plan forfeitures totaled \$22,695, all of which may be used to reduce the City's portion of its subsequent years' contribution requirements.

Police Officers and Firefighters - Defined Benefit Pension Plans:

Plan Description. The City maintains and administers separate single-employer pension plans for all eligible police officers and firefighters, which assets are included in the Municipal Police Officers' Retirement Trust Fund (the "Police Plan") and Municipal Firefighters' Pension Trust Fund (the "Fire Plan"). Both Plans issue publicly available stand-alone financial reports that include financial statements and required supplementary information for the plans. The Police Plan report may be obtained by writing to City of Holly Hill, Florida Police Officers' Retirement Trust Fund, Post Office Box 251485, Holly Hill, FL 32125 or calling (386) 248-9475. The Fire Plan report may be obtained by writing to City of Holly Hill, Florida Firefighters' Retirement System Pension Trust Fund, 1065 Ridgewood Avenue, Holly Hill, FL 32117-2898 or calling (386) 248-9473.

All certified police officers and firefighters are eligible to participate in the respective systems after employment. Benefits vest with eligible employees after ten years of participation. The funding methods and the determination of benefits payable are provided in the various acts of the Florida Legislature, which created the funds, including subsequent amendments thereto. More information relating to the funding methods, determination of benefits, and permissible investments for the Police Plan and the Fire Plan can be found in Chapters 185 and 175, Florida Statutes, respectively. These statutes provide, in general, that funds are to be accumulated from employee contributions, City contributions, State appropriations and income from investments from accumulated funds. The act also provides that should the accumulated funds at any time be insufficient to meet and pay the benefits due, the City shall supplement the funds by an appropriation from current funds or from any revenues which may be lawfully used for said purposes in an amount sufficient to make up the deficiency. The investments of the two funds are administered, managed, and operated by their respective boards of trustees using the services of the City staff, local financial institutions, and third-party fund custodians.

Full-time, uniformed police officers are eligible to participate in the Police Plan upon employment by the City. Full-time, uniformed firefighters are eligible to participate in the Fire Plan upon employment with the City. Employees vest with full benefits after 10 years of service. Normal retirement occurs for police officers at the earlier of age 55 and 10 years of credited service or 20 years of credited service regardless of age but no earlier than age 55 for vested terminations. Normal retirement for firefighters occurs at age 50. An independent actuary appointed by the Board of Trustees actuarially determines benefits to be paid to retirees.

NOTES TO THE FINANCIAL STATEMENTS - (Continued)
 September 30, 2003
 CITY OF HOLLY HILL, FLORIDA

Current membership in the pension plans is composed of the following:

	<u>Police Plan</u>	<u>Fire Plan</u>
Participant data as of October 1, 2002, the date of the most recent actuarial valuation:		
Retirees and beneficiaries currently receiving benefits	12	6
Vested terminated employees	0	1
Active employees:		
Fully vested	8	0
Nonvested	<u>17</u>	<u>13</u>
Total participants	<u>37</u>	<u>20</u>

Summary of Significant Accounting Policies of the Plans. The accrual basis of accounting is utilized in presenting the pension trust funds combining balance sheet and combining statement of revenue, expenses and changes in fund balance. Plan receivables are short term and consist of contributions due from the City, State and/or from plan members. Plan liabilities would generally include benefits due to plan members and beneficiaries and accrued investment and administrative expenses and are recognized when due and payable in accordance with the terms of the Plans. The difference between total plan assets and total plan liabilities at the reporting date are captioned net assets held in trust for pension benefits reserved for employees' pension benefits and represent the net assets held in trust for pension benefits.

Investments are reported at fair value and are managed by third party money managers. Investments that do not have an established market are reported at estimated fair value. Performance reporting, administrative expenses, and the City's asset valuation are based on the custodians' determination of value.

Contribution Requirements and Contributions Made. The City provides contributions to the Police Plan and Fire Plan under the authority of Chapters 185 and 175, Florida Statutes, respectively and pursuant to City ordinances. Employees covered under the plans are required to make contributions of 11.2% [Police Plan] and 10.0% [Fire Plan] of their compensation. The City is required to contribute the remaining amounts necessary to fund the Plans based on the funding amounts determined by the Plans' actuaries.

The City has adopted GASB Statement No. 27 on pension accounting and reporting. This statement requires the computation of a net pension obligation (NPO) or asset which would result if the City's contributions to the pension funds did not equal the annual pension cost as computed by the plan actuaries. During the current year, the City evaluated both plans to determine the net pension obligation or assets at the end of 2002.

NOTES TO THE FINANCIAL STATEMENTS - (Continued)

September 30, 2003

CITY OF HOLLY HILL, FLORIDA

The City's annual pension cost and net pension obligations to the Police and Fire Plans were as follows:

Municipal Police Officers' Retirement Trust Fund

<u>Fiscal Year Ending</u>	<u>Actuarial Determined Contribution</u>	<u>Percentage of ADC Contributed</u>	<u>Net Pension Obligation</u>
09/30/2002	\$ 25,404	100.0%	\$ 0
09/30/2001	0	100.0%	0
09/30/2000	0	100.0%	0

The ADC is reduced by funds received from the State of Florida that go directly into the Plan as stipulated by Ch. 185, F.S. For the past three years the City has not had to contribute to the Municipal Police Officers' Retirement Trust Fund above the amount covered by the State of Florida Casualty Insurance Premium Tax monies.

Municipal Firefighters' Pension Trust Fund

<u>Fiscal Year Ending</u>	<u>Actuarial Determined Contribution</u>	<u>Percentage of ADC Contributed</u>	<u>Net Pension Obligation</u>
09/30/2002	\$ 69,527	100%	\$ (55,776)
09/30/2001	42,883	142%	(56,682)
09/30/2000	41,977	100%	(39,318)

The Fire Plan has been subject to the minimum funding standards since the adoption of the "Florida Protection of Public Employee Retirement Benefits Act" (part VII, Chapter 112, Florida Statutes) in 1980. Accordingly, the City has funded the actuarially determined required contributions for all years from October 1, 1987, through the transition date, October 1, 1997. Thus, the Net Pension Obligation on October 1, 1997 is \$-0-.

The development of the Net Pension Obligation (NPO) in the Fire Plan through October 1, 2002 is as follows:

	<u>09/30/00</u>	<u>09/30/01</u>	<u>09/30/02</u>
Actuarially determined contribution	\$ 41,977	42,883	69,527
Interest on NPO	(2,977)	(2,949)	(4,251)
Adjustment	<u>3,635</u>	<u>3,577</u>	<u>5,157</u>
Annual Pension Cost	42,615	43,511	70,433
Contributions made	<u>41,977</u>	<u>60,875</u>	<u>69,527</u>
Increase in NPO	638	(17,364)	906
NPO - beginning of year	<u>(39,956)</u>	<u>(39,318)</u>	<u>(56,682)</u>
NPO - end of year	<u>\$ (39,318)</u>	<u>(56,682)</u>	<u>(55,776)</u>

NOTES TO THE FINANCIAL STATEMENTS - (Continued)

September 30, 2003

CITY OF HOLLY HILL, FLORIDA

The actuarial valuations for both plans were prepared in accordance with GASB Statements No. 25 and 27. Significant actuarial assumptions used in the valuations for each plan are as follows:

	<u>Police Plan</u>	<u>Fire Plan</u>
Contribution rates as of 09/30/02:		
City (employer)	0.0%	16.3%
City for Members	8.0%	0.0%
Plan Members	11.2%	10.0%
Actuarial valuation dates	10/01/02	10/01/02
Actuarial cost method	Aggregate	Aggregate
Amortization method	N/A	N/A
Remaining amortization period	N/A	N/A
Asset valuation method	4yr. Smoothed Market	4yr. Smoothed Market
Actuarial assumptions:		
Investment rate of return	8.0%	7.5%
Projected salary increases *	6.0%	5.0%
*Includes inflation at	3.0%	2.5%
Cost of living adjustments	0.0%	0.0%

N/A - The amortization method and period are not applicable for this plan since the Aggregate Actuarial Cost Method does not identify or separately amortize unfunded actuarial liabilities.

Related Party Transactions. The City held no securities which were included in the assets of the Police Plan or Fire Plan.

Required Supplementary Information. The required supplementary information pursuant to GASB No. 25 is contained in Schedules 1 and 2 presented immediately following these notes to the financial statements.

NOTE 11 - DEFERRED EMPLOYEE BENEFITS

The City offers its City Manager participation in a Money Purchase Plan and Trust, created in accordance with Section 401(a) of the Internal Revenue Code. The assets of this plan are administered by the International City Managers Association Retirement Corporation. Upon separation from service for reasons of death, disability or attainment of age 59½ (normal retirement age) the participant may elect to commence receiving benefits which equal accumulated employers' contributions plus earnings thereon. All benefits vest with the employee at the date of contribution. The City contributes 14.26% of the participant's salary to the Plan. For the year ended September 30, 2003, the City's covered payroll was \$76,340 and contributions were \$10,886.

The City also offers an alternative Section 457 plan to accommodate supplemental employee elective deferrals for employees covered in the City's defined benefit plans. The assets of this plan are also administered by the International City Managers Association Retirement Corporation. Supplemental employee contributions to the Plan for the fiscal year ended September 30, 2003 totaled \$26,199.

NOTES TO THE FINANCIAL STATEMENTS - (Continued)

September 30, 2003

CITY OF HOLLY HILL, FLORIDA

NOTE 12 - ACCOUNTING CHANGES

In June 1999, the Governmental Accounting Standards Board (GASB) promulgated Statement No. 34 entitled *Basic Financial Statements — and Management Discussion and Analysis — for State and local Governments*. This statement provides for significant changes in financial reporting and is scheduled for phased implementation based on the size of the government starting with fiscal years ending 2002 through 2004. As a Phase 2 government, the City is required to implement the provisions of this statement for the fiscal year ended September 30, 2003. Accordingly, restatement of the beginning of year fund balance for governmental activities was necessary to convert the reporting of net assets for governmental activities in the entity-wide financial statements.

NOTE 13 - LEGAL MATTERS

The City is engaged in routine litigation incidental to the conduct of their respective business and municipal affairs. In the opinion of their Counsel, no legal proceedings are pending against them, not covered by insurance, which would inhibit their ability to perform their operations or materially affect their financial condition.

NOTE 14 - COMMITMENTS

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal and state governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable fund(s). The amount, if any, of expenditures from current or prior years which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters, all of which is satisfactorily insured by general liability insurance. Commercial insurance policies are also obtained for all other risks of loss, including workers' compensation and employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years.

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds - are used to account for revenues derived from specific taxes or other earmarked revenue sources that are legally restricted to expenditures for particular purposes.

Law Enforcement Trust Fund - to account for the restricted revenues received from the sale of confiscated property and for the expenditure of the funds for restricted law enforcement purposes.

Youth Center - to account for the receipt and expenditure of program funds authorized by the Youth Center Advisory Board.

Community Development Block Grant - to account for the receipt and expenditure of program funds from the Community Development Block Grant program.

Local Law Enforcement Block Grant - to account for the receipt and expenditure of program funds from the Local Law Enforcement Block Grant program.

Debt Service Fund - is created and used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Capital Projects Fund - is created to account for the financial resources to be used for the acquisition or construction of major capital facilities by the City of Holly Hill except those financed by proprietary funds.

Capital Assets Used in the Operation of Governmental Funds - Include major tangible assets that benefit more than a single fiscal period

COMPLIANCE SECTION

BRENT MILLIKAN & COMPANY, P.A.
CERTIFIED PUBLIC ACCOUNTANTS

**REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

The Honorable Mayor, City Commission
and City Manager
City of Holly Hill, Florida

We have audited the general-purpose financial statements of City of Holly Hill, Florida, as of and for the year ended September 30, 2003, and have issued our report thereon dated April 20, 2004. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether City of Holly Hill, Florida's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered City of Holly Hill, Florida's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the City Commission and management, the Auditor General of the State of Florida, and federal and state awarding agencies, and is not intended to be used by anyone other than these specified parties.

Brent Millikan & Co., P.A.

April 20, 2004

BRENT MILLIKAN & COMPANY, P.A.
CERTIFIED PUBLIC ACCOUNTANTS

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND INTERNAL
CONTROL OVER COMPLIANCE APPLICABLE TO EACH MAJOR
FEDERAL PROGRAM AND STATE PROJECT**

The Honorable Mayor, City Commission
and City Manager
City of Holly Hill, Florida

Compliance

We have audited the compliance of City of Holly Hill, Florida with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended September 30, 2003. The City of Holly Hill, Florida's major federal programs are identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of City of Holly Hill, Florida's management. Our responsibility is to express an opinion on City of Holly Hill, Florida's compliance based on our audit.

We conducted our audit of compliance in accordance with United States generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about City of Holly Hill, Florida's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of City of Holly Hill, Florida's compliance with those requirements.

In our opinion, City of Holly Hill, Florida complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended September 30, 2003.

Internal Control Over Compliance

The management of City of Holly Hill, Florida is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered City of Holly Hill, Florida's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

The Honorable Mayor, City Commission
and City Manager
City of Holly Hill, Florida
Page 2 of 2

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program or state project being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

Schedule of Expenditures of Federal Awards

We have audited the basic financial statements of City of Holly Hill, Florida as of and for the year ended September 30, 2003, and have issued our report thereon dated April 20, 2004. Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements of the City of Holly Hill, Florida. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the City Commission and management, the Auditor General of the State of Florida, and federal and state awarding agencies, and is not intended to be used by anyone other than these specified parties.

Brent Milliken & Co., P.A.

**NOTES TO THE SCHEDULE OF EXPENDITURES OF
FEDERAL AWARDS**

For the Year Ended September 30, 2003
CITY OF HOLLY HILL, FLORIDA

1. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards includes the federal grant activity of City of Holly Hill, Florida, and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

2. LOANS OUTSTANDING

The City of Holly Hill, Florida, had the following loan balances outstanding at September 30, 2003. The expenditures incurred during the year ended September 30, 2003 are included in the expenditures of federal awards presented in the schedule.

Program Title	State CSFA Number	Expenditures Incurred	Outstanding Loan Amount
U.S. Department of Environmental Protection: Passed-through - Florida Department of Environmental Protection: Statewide Surface Water Restoration and Wastewater Projects (#CS12070906P)	66.458	\$1,695,651	\$2,688,507

3. SUBRECIPIENTS

No subrecipient payments were made by the City of Holly Hill, Florida during the year ended September 30, 2003.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

Year Ended September 30, 2003

CITY OF HOLLY HILL, FLORIDA

A. Summary of Auditor's Results

1. The auditor's report expresses an unqualified opinion on the general-purpose financial statements of the City of Holly Hill, Florida.
2. No reportable conditions were disclosed during the audit of the financial statements or reported in the Independent Auditors' Report on Compliance and on Internal Controls over Financial Reporting Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*.
3. No instances of noncompliance material to the financial statements of the City of Holly Hill, Florida, were disclosed during the audit.
4. There are no reportable conditions disclosed relating to the audit of the major federal programs and state projects reported in the Independent Auditors' Report on Compliance and Internal Control over Compliance Applicable to Each Major Federal Program and State Project.
5. The auditor's report on compliance for the major federal programs and state projects for the City of Holly Hill, Florida, expresses an unqualified opinion.
6. The audit disclosed no audit findings which are required to be reported.
7. The programs/projects tested as major programs/projects included the following:

Federal Program:	Federal CFDA No.
U.S. Department of Environmental Protection: Capitalization Grants for State Revolving Funds	66.458

State Projects - None.

8. The threshold for distinguishing Type A and Type B programs/projects was \$300,000 for major federal programs.
9. The City of Holly Hill, Florida was determined to be a low-risk auditee pursuant to OMB Circular A-133.

B. Findings - Financial Statements - OMB Circular A-133, Subpart E, Section 505(d)(2):	None
C. Findings and Questioned Costs - Major Federal Programs - OMB Circular A-133, Subpart E, Section 505(d)(3):	None
D. Findings and Questioned Costs - Major State Projects - Chapter 10.550, Rules of the Auditor General:	None
E. Other Issues	None

MANAGEMENT LETTER

The Honorable Mayor, and
Members of the City Commission
City of Holly Hill, Florida

We have audited the financial statements of City of Holly Hill, Florida, as of and for the fiscal year ended September 30, 2003, and have issued our report thereon dated April 20, 2004.

We conducted our audit in accordance with United States generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. We have issued our independent auditor's report on compliance and internal control over financial reporting, independent auditor's report on compliance and internal control over compliance applicable to each major federal program and state project, and schedule of findings and questioned costs. Disclosures in those reports and schedule, which are dated April 20, 2004, should be considered in conjunction with this management letter.

Additionally, our audit was conducted in accordance with Chapter 10.550, Rules of the Auditor General. Those rules (Section 10.554(1)(g)1.a.) require that we address in the management letter, if not already addressed in the auditor's reports on compliance and internal controls or schedule of findings and questioned costs, whether or not inaccuracies, shortages, defalcations, fraud, and/or violations of laws, rules, regulations, and contractual provisions reported in the preceding annual financial audit report have been corrected. There were no inaccuracies, shortages, defalcations, fraud, and/or violations of laws, rules, regulations, and contractual provisions disclosed in the preceding audit report that required correction.

The Rules of the Auditor General (Section 10.554(1)(g)1.b.) require that we address in the management letter, if not already addressed in the auditor's reports on compliance and internal controls or schedule of findings and questioned costs, whether or not recommendations made in the preceding annual financial audit report have been followed. There were no recommendations made in the preceding annual financial audit report pertaining to matters of compliance and internal controls or schedule of findings and questioned costs.

As required by the Rules of the Auditor General (Section 10.554(1)(g)2.), the scope of our audit included a review of the provisions of Section 218.415, Florida Statutes, regarding the investment of public funds. In connection with our audit, we determined that City of Holly Hill, Florida, complied with Section 218.415, Florida Statutes.

As required by the Rules of the Auditor General (section 10.544(1)(g)3.), recommendations to improve financial management, accounting procedures, and internal control are reported in the attached Exhibit A under the heading *Current Year Findings and Recommendations*.

The Honorable Mayor, and
Members of the City Commission
City of Holly Hill, Florida
Page 2 of 2

The Rules of Auditor General (Section 10.554(1)(g)4.) require disclosure in the management letter of the following matters if not already addressed in the auditor's reports on compliance and internal controls or schedule of findings and questioned costs: (1) violations of laws, rules, regulations, and contractual provisions that have occurred, or are likely to have occurred; (2) improper or illegal expenditures; (3) improper or inadequate accounting procedures (e. g., the omission of required disclosures from the financial statements); (4) failures to properly record financial transactions; and (5) other inaccuracies, shortages, defalcations, and instances of fraud discovered by, or that come to the attention of, the auditor. Our audit disclosed no matters that are required to be reported.

The Rules of the Auditor General (Section 10.554(1)(g)5.) also require that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in the management letter, unless disclosed in the notes to the financial statements. The City of Holly Hill, Florida was originally incorporated under the general laws of Florida on July 1, 1901 (Records of Incorporations, Volusia County, Vol. I, p. 101). This incorporation was validated in 1903 by Laws of Florida, Chapter 5346 (1903). The City of Holly Hill Community Redevelopment Authority was created by Ordinance No. 2426.

As required by the Rules of the Auditor General (Section 10.554(1)(g)6.a.), the scope of our audit included a review of the provisions of Section 218.503(1), Florida Statutes, regarding financial emergencies. In connection with our audit, we determined that City of Holly Hill, Florida, is not in a state of financial emergency as a consequence of the conditions described in Section 218.503(1), Florida Statutes.

As required by the Rules of the Auditor General (Section 10.554(1)(g)6.b.), we determined that the annual financial report for City of Holly Hill, Florida for the fiscal year ended September 30, 2003, filed with the Department of Banking Finance pursuant to Section 218.32, Florida Statutes, is in agreement with the annual financial audit report for the fiscal year ended September 30, 2003.

As required by the Rules of the Auditor General (Sections 10.554(g)(6)c. and 10.556), we applied financial condition assessment procedures. It is management's responsibility to monitor the entity's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same. We assessed the City's financial condition as of the fiscal year ended September 30, 2003. Based on our assessment the City does not have a deteriorating financial condition.

This report is intended solely for the information and use of the City Commission and management, the Auditor General of the State of Florida, and federal and state awarding agencies, and is not intended to be used by anyone other than these specified parties.

Brent Milliken & Co., P.A.

April 20, 2004

As required by Section 10.554(1)(G), Rules of the Auditor General of the State of Florida, we make the following disclosures:

Current Year Findings and Recommendations

A. Violations of Laws, Rules, and Regulations

FDEP Loan Requirement - Debt Service Account

Under the terms of the State of Florida, Department of Environmental Protection (FDEP) Drinking Water State Revolving Fund Loan Agreement, the City is required to establish a Loan Debt Service Account for the purpose of receiving the required monthly deposits to pay the next upcoming semi-annual principal and interest payment on the obligation in accordance with the provisions of Article III, Section 3.01 of the Loan Agreement.

We recommend that the Debt Service Account be established and funded at the earliest possible convenience to be in compliance with the applicable loan covenant.

B. Illegal or Improper Expenditures – None

C. Improper or Inadequate Accounting Procedures - None

D. Other Matters

Utilities Inventories

Sound procedures for the taking of physical inventories is important in assuring that inventory reflected in the financial records does physically exist and that the operating results of the proprietary operation are not adversely affected from the exclusion of material inventories. However, this is not a substitute for reliable accounting and reporting procedures.

We recommend that a perpetual inventory system be established to control selected inventory items that are readily convertible to personal use and items with high unit costs. Periodic physical counts should be made of these items in order to detect pilferage or usage not charged to jobs, and the physical count should be reconciled to the perpetual records.

Once established, perpetual records would:

- Reduce the frequency of physical inventory counts.
- Provide better accounting control over the flow of goods and increase the possibility of detecting theft or unrecorded shipments.
- Provide management with more valuable tools to monitor realization and spot usage inefficiencies.
- Provide more reliable cost and accounting data as a basis for determining operating results.

Monitoring for Fraud

In June 2003 the Comptroller General of the United States issued the 2003 revision of *Government Auditing Standards*, which incorporated the American Institute of Certified Public Accountants' promulgation Statements on Auditing Standards, No. 99 (SAS 99), *Consideration of Fraud in a Financial Statement Audit*. SAS 99 includes a document titled "Management Antifraud Programs and Controls: Guidance to Help Prevent, Deter, and Detect Fraud," which spells out specific recommendations to help the City Commission, audit committee, management and others to prevent and detect fraud – from unproductive behavior and employee theft to misappropriation of assets and fraudulent financial reporting. This document identifies the measures an organization should consider taking to prevent, deter, and detect fraud. It maintains that the City should establish three fundamental practices:

- A culture of honesty and high ethics
- Antifraud processes and controls
- An appropriate oversight process

Management is responsible for overseeing the activities carried out by employees and for implementing and monitoring antifraud processes and controls. However, it is possible that senior management may initiate or participate in the commission or concealment of a fraudulent act, because fraud can occur when management overrides internal controls. For that reason, an audit committee or appointed members of the Commission should supervise the activities of senior management. SAS 99 makes it clear that while management designs and implements antifraud systems and procedures, strong oversight by the Commission, or audit committee, is absolutely crucial.

In planning and performing our audit, we consider the City's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the basic financial statements and part of this work involves determining management's identification and measurement of the risks of fraud and whether preventive internal controls are implemented to mitigate those risks. Although the City has various policies and procedures to manage the City's finances and financial reporting, the new standards require more responsibility on management's part to set up an effective and secure environment to specifically address fraud risks and to monitor antifraud processes and controls.

We recommend that management read the excerpt titled "Management Antifraud Programs and Controls: Guidance to Help Prevent, Deter, and Detect Fraud" to better understand the new requirements of this standard and for assistance in developing ways to enhance the City's internal controls to specifically address fraud risk factors, identify anti-fraud processes and controls, monitor such processes and controls and to provide a means for reporting any wrongdoing. Appropriate oversight process is crucial. Accordingly, we recommend that the Commission discuss these matters with management to appoint an active oversight process to evaluate management's identification of fraud risks, implementation of anti-fraud measures and maintenance of the appropriate supervision of the activities of senior management, in addition to the activities involving all of the City's personnel.

To the Honorable Mayor, City Commission
And City Manager

RESPONSE TO MANAGEMENT COMMENTS FYE 9/30/03

FDEP Loan Requirement – Debt Service Account

The Finance Department Staff is adding a Debt Service Fund for the purpose of receiving the monthly deposits to pay the semi-annual principal and interest payment on the Florida Department of Environmental State Revolving Fund Loan obtained for stormwater projects.

Utilities Inventories

The Finance Director and staff will work with the City Manager and the various departments to establish the procedures necessary for the taking of physical inventories and to establish a perpetual inventory system that will provide reliable accounting and reporting of inventories.

Monitoring for Fraud

The Finance Director and City Manager will work with the City Commission and department staff to incorporate the recommendations made for establishing the measures necessary to prevent, deter, and detect fraud within the city organization in accordance with Statements on Auditing Standards, No. 99 (SAS 99), Consideration of Fraud in a Financial Statement Audit.
